

Leadership is intentional.

Join us for a year of learning, connection & community!

The Leadership Learning Lab (LLL) combines adaptive and collaborative leadership, time management, and a suite of nonprofit and cross-sector capacity-building skills. It invests directly in leaders as a way to strengthen their organizations and the communities they serve.

The LLL is designed to help you:

- become a more self-aware, adaptive and resilient leader
- reduce your overwhelm and focus on what is most important
- develop improved communication and collaborative skills
- increase your awareness of power, identity and equity
- gain a suite of practical tools and resources for nonprofit and cross-sector leaders
- develop a network of support within the LLL community
